

Cybersecurity Awareness Training Solutions

Security Awareness Training, Phish Simulations, Phish Response, Compliance

The latest Verizon Data Breach Awareness Report has exposed the alarming fact that Business Email Compromises (BECs) have a median average cost of \$50,000. This underscores the critical significance of promptly detecting, responding to, and above all, preventing such threats to protect your organization.

GSI specializes in offering state-of-the-art cybersecurity awareness training and cutting-edge simulated phishing solutions aimed at safeguarding you from these evolving threats by educating your users. Our wide range of services encompasses interactive training modules, immersive phishing simulations, assessments, advanced compliance management tools, swift phishing incident response, detailed reporting/ analytics, and customizable options to suit your needs.

GSI's offerings are designed to elevate your organization's security posture, educate employees about the ever-evolving cybersecurity landscape, and ensure compliance with industry regulations. By seamlessly integrating training, simulations, and assessment tools, GSI empowers organizations to foster a robust security culture and effectively mitigate risks. Begin your journey with a complimentary consultation and embark on a path towards unparalleled security.

GSI's Cybersecurity Training Solutions:

- Security Awareness Training Platform
- PhishER
- Compliance Plus
- Security Coach

GSI's Cybersecurity Training Solutions

Security Awareness Training Platform

Using KnowBe4's Enterprise Awareness Training Program, GSI provides you with a comprehensive new-school approach that integrates baseline testing using mock attacks, engaging interactive web-based training, and continuous assessment through simulated phishing attacks to build a more resilient and secure organization.

Your employees face constant exposure to advanced social engineering attacks. It is crucial to adopt a comprehensive solution that effectively addresses this issue, led by individuals with strong technical expertise.

We conduct comprehensive baseline testing to evaluate the susceptibility of your users to phishing attacks. Our extensive library of cybersecurity awareness training content includes interactive modules, videos, games, posters, and newsletters, ensuring that your employees receive the most effective training available. With automated training campaigns and scheduled reminder emails, we make it easy to keep your users educated and vigilant. Our cutting-edge simulated phishing attacks, featuring thousands of templates and unlimited usage, allow you to assess the effectiveness of your security measures. To provide you with valuable insights, we offer enterprise-strength reporting, delivering high-level and granular stats and graphs for management reports. Additionally, each user has a personal timeline to track their progress and growth.

PhishER

Enhance email threat response with KnowBe4's PhishER. Experience faster identification and response to email threats with automatic email prioritization. PhishER empowers your InfoSec and Security Operations team to efficiently tackle the most dangerous threats. It serves as a vital component of your security workstream, enabling you to handle potentially malicious email messages reported by your users. PhishER helps your team cut through inbox noise and promptly respond to critical threats. Automate the management of non-threatening emails and build a fully coordinated Security Operations Center (SOC).

Compliance Plus

Traditional compliance training has long been challenging for organizations, difficult to execute effectively, and costly due to high per-user fees. Senior executives, including those in management, risk, compliance, and HR, have struggled with these issues for years, resulting in significant gaps between current and desired states.

One of the most crucial factors in meeting compliance requirements is ensuring that users truly understand and apply them in their roles. That's why KnowBe4 has developed Compliance Plus, a new-school approach to compliance training that is up-to-date, engaging, relevant, short, and customizable. The interactive and realistic scenarios help users navigate challenging situations, covering topics such as sexual harassment, diversity and inclusion, discrimination, and business ethics. With Compliance Plus and GSI, you can finally address the ongoing issue of employee non-compliance effectively.

Security Coach

SecurityCoach is real-time security coaching to help IT and Security Operations teams protect your organization's employees better. It delivers immediate feedback to users when risky behavior occurs, integrates with existing security products to share alert data, manages and reduces human risk in real-time, and reduces SOC overload by automating repetitive risky behaviors.

What Makes GSI's Application Security Tools and Solutions Different?

Application Expertise

Industry-leading enterprise application experts with an average of 18+ years of application, security, industry, cloud, business, and managed services experience.

Certified CISO & vCISO Resources
