

A Pathway to Success

Leading Practices for SuiteSuccess Starter

With thousands of successful implementations, NetSuite has a deep understanding of businesses across all sectors and the many financial challenges they face. As the pace of change accelerates—especially for those still relying on aged, on-premise ERP systems—companies are struggling to keep up. While they strive to improve business performance and increase customer satisfaction in an increasingly competitive environment, businesses today are constantly challenged with:

- Metrics based on unreliable data.
- Duplicative and manual processes.
- Maintaining compliance and control.
- Lack of flexibility resulting in an inability to scale.
- No real-time visibility into sales, customers, financials and inventory.

A Proven Path to Success

NetSuite delivers a unified and phased pathway for our customers to succeed and scale their business. Here is how it works:

- The first step is all about delivering a single view of customers, orders, items/SKUs and real-time reporting capabilities. Getting a business on a real-time platform so that all channels are operating from a unified base is the critical foundation. Leveraging NetSuite's pre-configurations and leading practices, customers are able to go live on this step quickly.
- After moving to NetSuite, customers can choose from a number of capabilities to help streamline other parts of the business. A common next step is expanding the accounting and financial functionality of the platform to enhance reporting and automation capabilities. This phase allows for international expansion, advanced financial capabilities, more streamlined procurement processes and tighter purchasing controls.
- From there, they are freed from the constraints of their legacy systems and are ready to tackle more complex financial challenges, including integration expansion, project management organizations, global operations and book management, and advanced compliance requirements.
- Ultimately, the focus turns to more innovative and disruptive strategies such as integrated marketing, enhanced customer experience through self-service and multi-channel integration.
